

DENTURE SMILE DESIGN

THROUGH THE APPLICATION OF ESTHETIC SMILE DESIGN PRINCIPLES WE ARE TAKING DENTURE FABRICATION TO THE NEXT LEVEL BY DRAMATICALLY IMPROVING DOCTOR AND LAB COMMUNICATION.

PLEASE PROVIDE THE FOLLOWING:

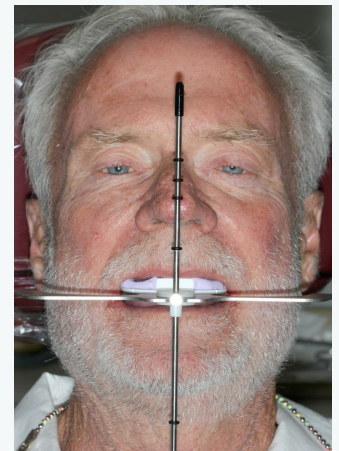

- 📍 **Kois Facbow (or your Facebow of choice)**
- 📍 **Full Face Photos (4)**
 - 📍 Lips together and relaxed, lips apart and relaxed, smile, lips retracted
- 📍 **Close Up Perioral Photos (2)**
 - 📍 Lips apart and relaxed, smile

PLEASE NOTE THAT THE SAME PHOTOS OF THE TRY-IN WITH TEETH SHOULD BE TAKEN AT THE TRY-IN APPOINTMENT IN ORDER TO IMPROVE TRY-IN COMMUNICATION AS WELL

THEY KEY TO MAXIMIZING THE EFFICACY OF DIGITAL PHOTOGRAPHY AND ESTHETIC TOOTH ARRANGEMENT IS STRIVING TO TAKE THE PHOTOS FROM THE SAME ORIENTATION. IDEALLY THESE PHOTOS SHOULD BE TAKEN WITH AN SLR CAMERA AND RING FLASH. HOWEVER, THESE SAME PHOTOS WITH AN IPHONE OR POINT AND SHOOT WILL SIGNIFICANTLY HELP IMPROVE THE QUALITY OF WORK WE CAN PROVIDE FOR YOU AND YOUR PATIENT.

Please send the photos via email or dropbox. If you have difficulty with email due to the size of the images please give us a call us at 800-574-0721 and ask for Jordan
