

diagnostic planning

begin with the end in mind

\$45

per unit
includes wax
up, matrices &
prep guide

When beginning a high-risk esthetically driven restorative case, it is important for the patient, the lab and the dental team to have a clear vision of the final outcome. It is often difficult for patients to articulate what they find esthetically undesirable. Sometimes, they are simply “unhappy” with their appearance. Part of the dental team’s role is to gain an understanding of their patients’ esthetic concerns and discuss with them the solutions that are available..... Call today and begin planning your next case with us: 800-574-0721
